Sum Up

At the core of it

we want to be always happy and prosperous,

we want to be healthy,

we want to live in relationship in the family, with friends, in the institution…with every human being,

we want to live in a just and equitable society and

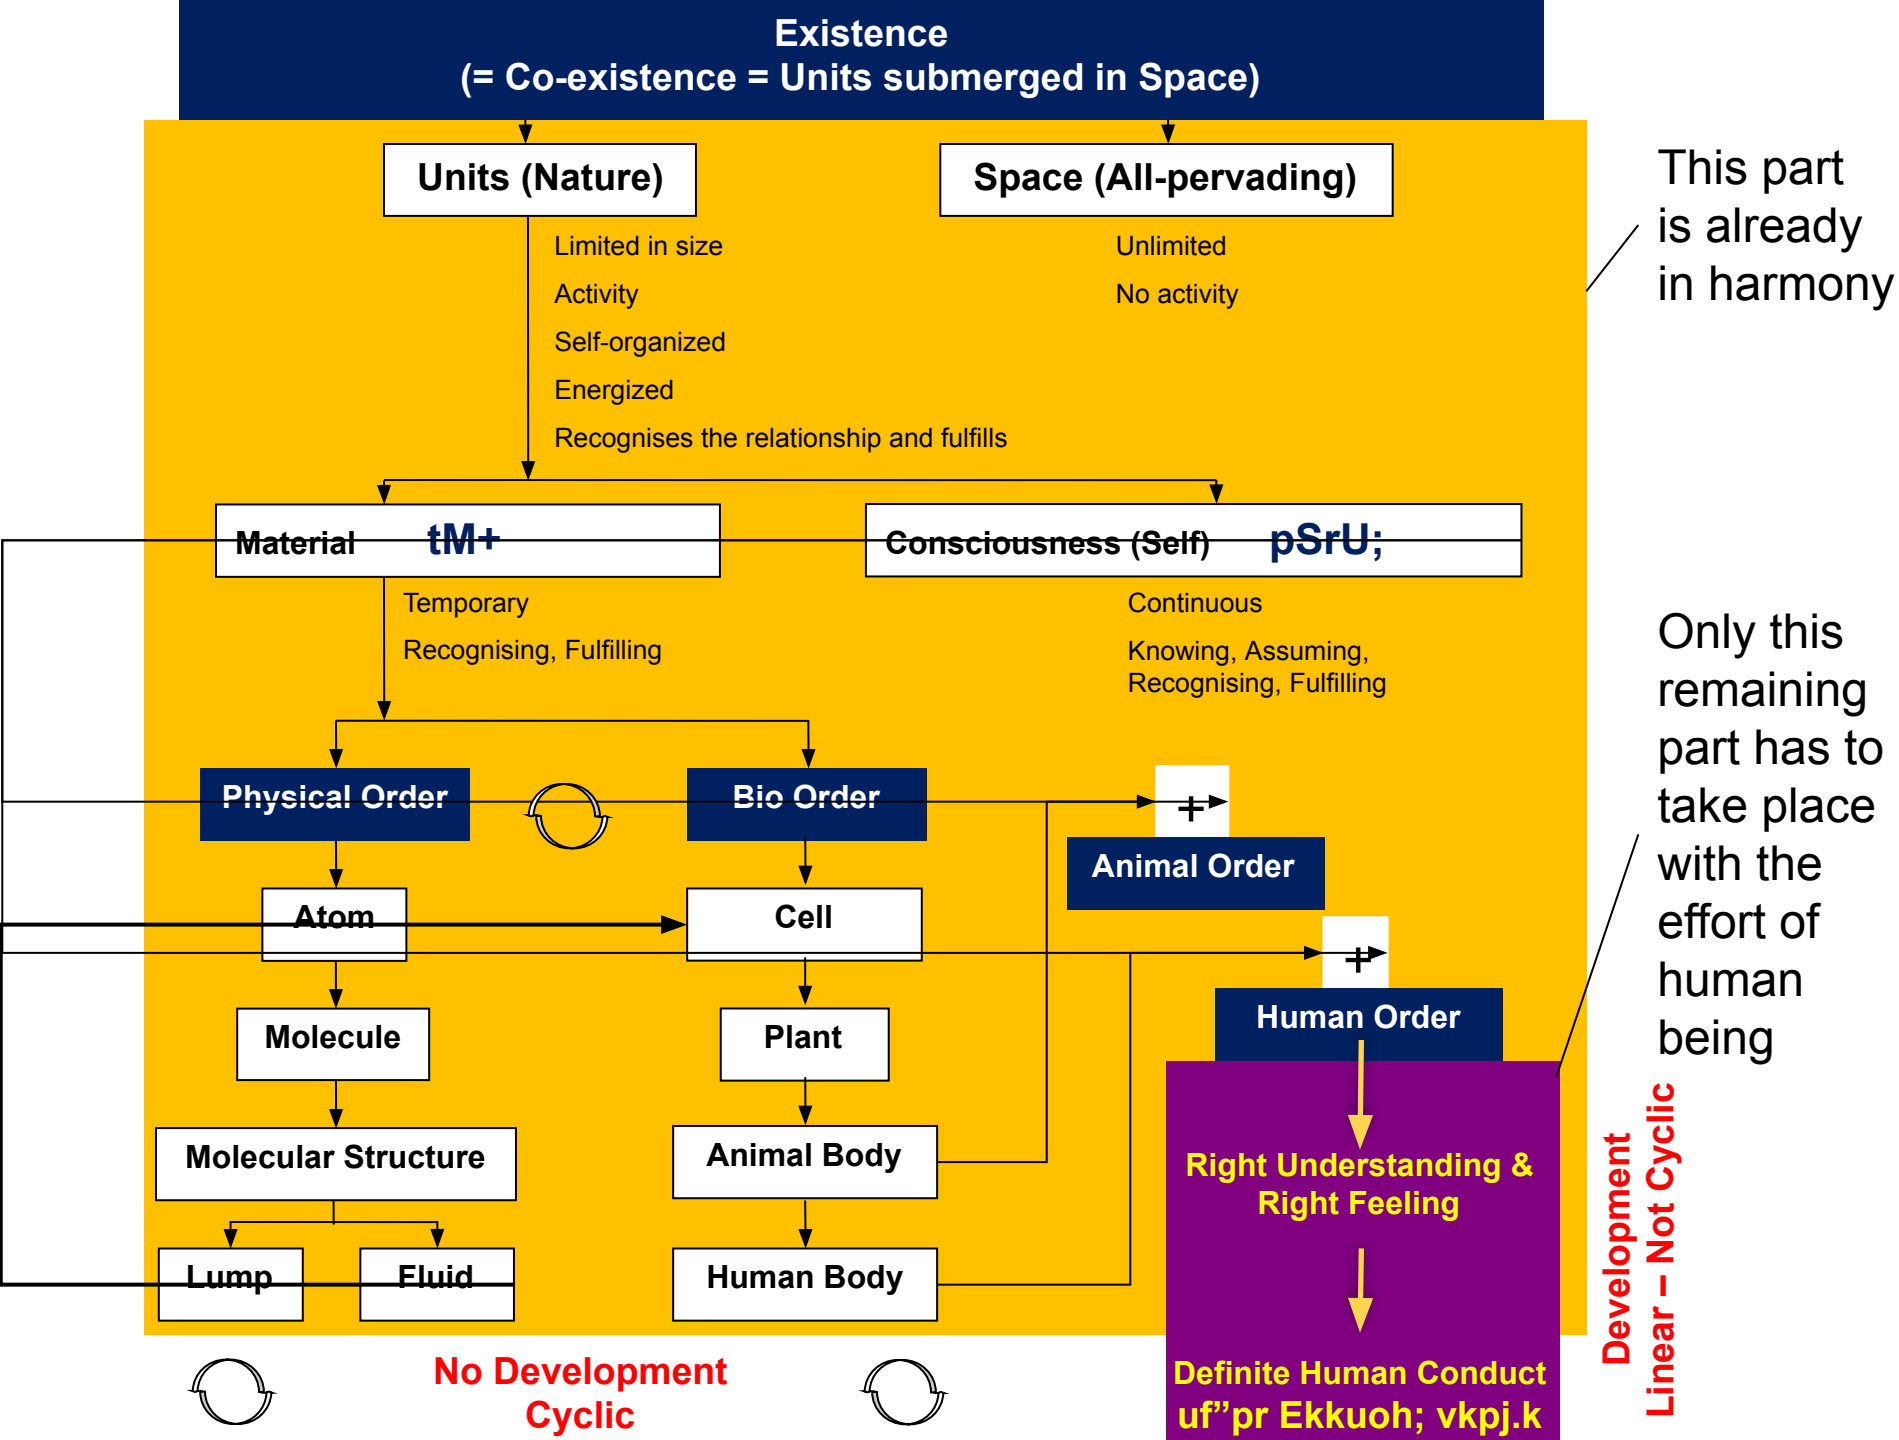
we want to have a conducive natural environment

We also do not want problems

For fulfilling our aspirations (and for resolving our problems), we have to understand, ensure the right feeling in ourself and participate in a meaningful manner in the larger systems in the family, society and nature

There is every provision for this…

only we have to make the effort in this direction



Existence
(= Co-existence = Units submerged in Space)
Units (Nature)
Space (All-pervading)
Limited in size
Activity
Self-organized
Energized
Recognises the relationship and fulfills
Unlimited
No activity

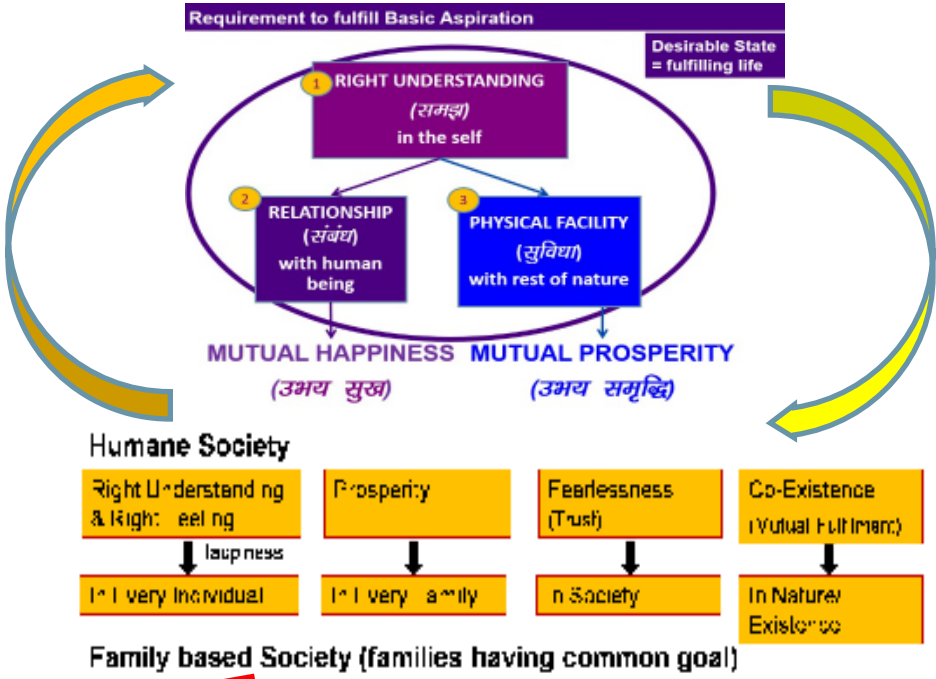
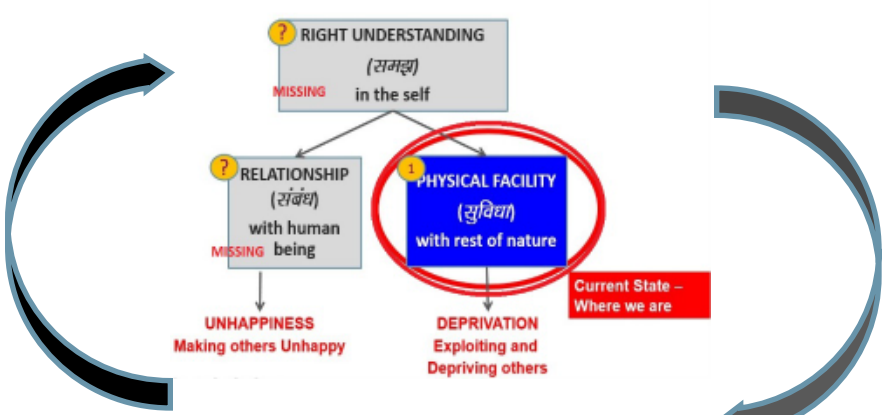
Cyclic
Development
Linear – Not Cyclic
This part is already in harmony
Only this remaining part has to take place with the effort of human being

Purpose of Education: To Enable Transformation

People living with human consciousness give rise to a humane society





Inhuman "Society" (Crowd or Battlefield)

Assumptions (eg. Money is everything)	Accumulation By Any Means	Domination, Exploitation, Fear	Mastery & Exploitation
In Every Individual	In few Individuals	In Society	Over Nature
Obsession for Consumption " for Profit " for Sensual Pleasure		Terrorism War	Resource Depletion Pollution

Individual based (having different or opposing goals)

Transformation& Progress
laØe.k&fodkl

We are making effort for this transformation We want our institution to be a living example…

Further

Future Scope

Before the end of SIP

- Self-evaluation
- Feedback
- Celebration

In all semesters:

- Mentor program
- Buddy program

In 3rd/4th Semester

- UHV-II mandatory 3-credit course on Universal Human Values

In Closing…

UHV-I was just a glimpse of your potential as a human being

If you can see the possibility of this content and process,
If you can see your own potential, and the potential of your family,
your institution, your society, the Nation…
then you will renew your commitment to make the necessary effort for it

As a student, you have a high possibility to realise this potential

- To develop to your *full human personality* and
- To be a source of *a just and equitable society*

It has been an enriching experience for us
We would like to hear from you about your experience
