- **Platform:** YouTube
- **Incident:** News report on an electric scooter (e-scooter) fire in an apartment building lobby.
- **Link:**
[▶ Electric scooter explodes, fills apartment building with s...](#)
(This is a representative link for the activity).
- **Video Summary:** The video shows a rapid and intense fire originating from an e-scooter in an apartment building's common area. The fire quickly produces significant smoke, engulfing the space and posing a serious threat to residents. The incident highlights the dangers of e-scooter battery fires and the importance of proper charging and storage practices to prevent such events.
